| 11. soup can with a radius of 2 units and a height of 3 units? Express your answer in terms of $\pi$ .  The ratio of two complimentary angles is 2:1.   | 10. | is the positive difference between these two  |         |       |
| 117   | 11. | soup can with a radius of 2 units and a height of 3   |         |       |
|   | 12. |   |         |       |

| 13. | What is the product of 0.5% of 500 and 5% of 50?  |  |
|-----|---|--|
| 14. | The price one gallon of gas was \$3.50. The price went up by 20%, and then down by 10%. What is the new price in dollars of a gallon of gas?                  |  |
| 15. | As a common fraction, what is the ratio of $\frac{y}{x}$ if 2x = 8y?  |  |
| 16. | What is the least common multiple of 36 and 99?   |  |
| 17. | Two similar polygons are shown. Find the sum of the values of x, y, and z. If your answer is not a whole number, give it as a reduced fraction.               |  |
| 18. | Find the value of: $ (3+1)^2 + (5-3)^2 - (6+2)^2 - (3+3)^2 + (0-1)^2 $  |  |
| 19. | Find the value of x if $4x - 29 = x - 8$ .  |  |
| 20. | What is the y-intercept of a line passing through the following points? $\left(-\frac{5}{4}, \frac{2}{3}\right)$ and $\left(-\frac{2}{3}, \frac{1}{5}\right)$ |  |
| 21. | If $\frac{x+10}{x} = 3$ , then, as a common fraction, what is the value of $\frac{x^2-1}{x^2}$ ?  |  |
| 22. | What is the measure, in degrees, of the smaller angle made by the hands of a clock at 11:30 am?   |  |
| 23. | Express $2.\overline{02}$ as a fraction in simplest form.   |  |
| 24. | Evaluate: 12! ÷ 10!   |  |

Division N

| 25. | How many positive x satisfy the inequality: x3≤51?  |  |  |  |
|-----|---|--|--|--|
| 26. | Evaluate $11 - 2\sqrt{26 - 10x^2}$ when $x = -1$  |  |  |  |
| 27. | The average (arithmetic mean) of my number and your number is X. The average of X and your number is 28. If my number is 4, what is your number?  |  |  |  |
| 28. | Anca has twice as many apples as Bianca. If Anca took X more apples, she would have 83 apples. If Bianca took X more apples, she would have 49 apples. What is X?   |  |  |  |
| 29. | What is the cube root of sixty-four?  |  |  |  |
| 30. | If a car is driving at an average rate of fifty miles per hour, how many minutes will it take the car to travel thirty-five miles?  |  |  |  |
| 31. | What is the value of x? $\frac{2}{3}x - \frac{1}{4} = \frac{5}{6}x - \frac{5}{4}$   |  |  |  |
| 32. | If a is 160% of b and b is 50% of c, then what percent of a is c?   |  |  |  |
| 33. | A block of wood in the shape of a rectangular prism measured 10 inches by 6 inches by 1 foot. Lance cut this block into smaller rectangular prisms measuring 2 inches by 2 inches by 2 inches. What is the maximum number of smaller prisms he could get? |  |  |  |
| 34. | A number n, not necessarily an integer, is selected at random such that $-5 < n < 7$ . What is the probability that $2 < n < 9$ ?   |  |  |  |
|     | TOTAL SCORE   |  |  |  |

Team#:

• Write your answers in this test booklet.

• Unit is not necessary. If you choose to label your answer, please make sure you write the correct unit. A correct answer with incorrect unit will be marked as an incorrect answer.

Correct answer: 1 point Blank answer: 0 point Incorrect answer: 0 point.
